How to upload multiple files in a project

Some projects, especially in units 19-24, require both written and oral components. If you want to upload multiple files in the same project, here's how:

On the **PUBLICAR** tab of the Proyecto, **CLICK UPLOAD FILE**.

Drag and drop your first file to the window or use the browse functionality.

Be sure that your file is one of the allowed file types shown at the top of the screen and that the file does not exceed the maximum size limit. Scroll down and click **SAVE**.

Now drag and drop your second file to the window or use the browse functionality. Scroll down and click **SAVE**.

Repeat if needed.

When you are ready, click **SUBMIT TO INSTRUCTOR**.

Be sure you see **PROJECT HAS BEEN SUBMITTED** in the My project info box.
