

LingroHub: Student How-To Guide

Additional materials

Many LingroHub courses have additional materials available to students at different points in the course.

The additional materials tab, when present, is always found at the bottom center of the screen.

The screenshot shows the LingroHub interface for a course titled "4-Contraseña: Proyecto". The main activity is "Proyecto: ¿Cómo es mi universidad?". The activity description states: "Using *Mi universidad: un selfrecorrido* as a model, you will create a video describing your favorite places on campus and/or where you live and study." The activity details are: Due: No due date set, Points: 0* / 6, Activity: Practice, Answers on Submit, Status: Resuming unsubmitted attempt, Attempts: 0 / unlimited, Time: Not timed. The activity is labeled "Activity 1 of 1". The main content area contains two steps: "Paso 1. Select and write down the list of at least three places you want to include. These can be your room, a classroom, or a place where you spend a lot of time. If you don't live on campus or don't attend face-to-face classes, you can show the areas where you spend time studying, such as your living room or a local library." and "Paso 2. Review *Mi universidad: un selfrecorrido* in the ADDITIONAL MATERIALS tab that appears at the bottom of the page and jot down words, expressions, or aspects of the organization that you would like to use in your version." A red arrow points to the "ADDITIONAL MATERIALS" tab at the bottom center of the screen.

When you click the additional materials tab, the resources that you may need for the section are displayed.

The screenshot shows the LingroHub interface for the same course and activity as the previous screenshot. The "ADDITIONAL MATERIALS" tab is active, displaying a list of resources. The resources are: "Texto: Mi universidad: un selfrecorrido", "Vocabulario 4-1: La vida en el campus", "Vocabulario 4-2: Me gusta y no me gusta", "Resumen gramatical 4-1: The verb haber in contrast with ser and estar", and "Resumen gramatical 4-2: The present tense of -ar verbs".
