

Some of the activities in your LingroHub course require grading by your instructor.

Instructor-graded responses could be written, open-ended responses where you type your response, like the example below.

NOTE: There will be a Character palette available for you to add accented letters and special characters. Simply open the Character palette by clicking the "á" in the upper left corner of the text box, choose your special characters, then continue typing.

Or, **instructor-graded responses** could be voice-recorded activities where you will need to speak and record your answer, like the following example.

NOTE: You can playback and re-record your responses as many times as you need before submitting.
